

## Rust Shock

### the "chemical wrench"

WEICON Rust Shock is free of mineral oil, grease and silicone.

Rust Shock is a „chemical screwdriver“ and uses its chill effect and capillary properties to loosen threaded joints in seconds.

WEICON Rust Shock can be used in all industrial sectors requiring threaded joints to be loosened.

### Technical Data

Odour	solvent
Features	removes rusted-tight screw connections of any type in seconds
Storage stability	12 months
Colour	transparent
ISSA-Code	53.402.10
IMPA-Code	450822

### Processing

Shake can before use. Spray Rust Shock at about 15 cm distance onto the part to be treated and let it work for 10 - 20 seconds. Then unscrew the connection. With extremely rusted parts, repeat the process.

### Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

### Safety and health

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets ([www.weicon.com](http://www.weicon.com)) must be observed.

### Available sizes:

11151400 Rust Shock 400 ml

### Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
